OUR STORY

DID YOU KNOW? OUR BRAND NAME CAME FROM GEORGES' SON WHEN HE WAS 7

In the mid 1990's after completing work on the French side of the channel tunnel project, Georges Le Van rewarded himself with an Austin Healey and moved to leafy Surrey, England with his wife.

Knowing that Georges was a resourceful man, a neighbour enlisted his help as he was struggling to picture how some alterations to his house might look. Georges went home and designed a miniature wooden house in his garden shed.

The neighbour was delighted. Quickly the little house became a popular plaything with Georges' sons and their school friends. Soon people began to ask where they could buy one and so the idea of making them for sale was born.

Georges started his search for someone to help get them made, driving all the way to the world famous Nuremberg Toy Fair. With no ticket to the show and no money for a hotel he camped out in the car park going into the show each day as a visitor, carrying his dolls house under his arm.

It took over a year until our meticulous founder had a sample he was happy with and then came the next challenge – finding the money to place the order. Georges decided to sell his pride and joy - his Austin Healey - to fund the very first batch of Le Toy Van dolls houses, back in 1995.

Today the close descendant of that original dolls house, an all-time best seller, is still in our range – as Sophie's doll house.

LE TOY VAN®
The Magic of Play

THE MAGIC OF PLAY

We believe play inspires the mind and nourishes the soul. Children can explore fantasies and explore the limits of their reality. They learn to socialise and express themselves through play, and as parents and guardians we can delight in their development. A happy childhood full of play, with tactile toys hand-made for lasting pleasure, sets young people up for life. Special times become even more magical.

AT LE TOY VAN WE LOVE WOOD. IT'S 100% NATURAL, SUPREMELY TACTILE, ECO-FRIENDLY, SAFE AND LONG-LASTING. WE ONLY EVER USE SUSTAINABLE WOOD IN OUR TOYS, USING A COMBINATION OF FSC CERTIFIED WOOD & INDONESIAN LEGAL WOOD. THESE SCHEMES ENSURE THE WOOD FOR OUR TOYS MEETS THE HIGHEST ENVIRONMENTAL AND SOCIAL STANDARDS. WE ALSO USE NON-TOXIC, WATER-BASED PAINTS FOR OUR TOYS MEANING THAT THEY'RE SAFE FOR YOUR CHILDREN AND KIND TO THE ENVIRONMENT.

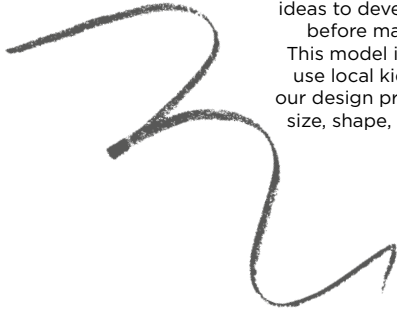

WOOD IS GOOD

DESIGNED IN LONDON

IT CAN TAKE OUR IN-HOUSE

big kids 18 months to design and develop a new Le Toy Van toy. That's because we like to do things properly. It all starts with an idea. We sketch up the ideas to develop the concepts before making a 3D model. This model is played with, we use local kids at all stages of our design process, judged for size, shape, colour, play value and fun factor!

Safety is always our number one priority, and we work hard across all stages of production to meet and exceed industry standards. We create durable structures and designs, with supreme quality manufacturing, made with safe materials including natural wood and water-based paints.

HANDMADE WITH LOVE

Rigorous safety testing is carried out at every stage, ensuring kid safe edges and non-toxic paints for safe play every day.

Our toys are handmade with love in Indonesia & China. We carefully select our places of production, regularly visiting our factories and have long term relationships where we trust and support their ethical working practices.
